

As a polyethylene and polypropylene film producer, Bareks A.Ş.'s fundamental policy is; to fulfill the needs and expectations of stakeholders, national and international standards' requirements, responsibilities of legal and other conditions, and to provide legality, integrity and safety of the product throughout the supply chain.

Our goal is to produce reliable, high quality and sustainable products with the principles of continuous improvement, increasing efficiency, using correct and sufficient resources by closely following scientific and technological developments in the corporate structure created based on the needs and expectations of the customer and the market.

On the way to be a sustainable film producer, Bareks A.Ş. contributes to the circular economy with its increasing production capacity and its environmentally friendly product portfolio by developing green products for the environment.

Bareks A.Ş. is committed to fully accomplish, develop and update ISCC system requirements at all control points in the traceability and chain of custody for sustainable product groups.

Bareks A.Ş. adopts the training requirements of human resources, which are the building blocks of the sustainability principle and the continuous improvement of systems as its basic principle.

Throughout these principles, Bareks A.Ş. commits to periodically review the infrastructure and quality systems, to identify and manage the risks and opportunities of the processes accurately and effectively at the point of achieving the targets, and to provide the necessary resource support at every stage.
